

DAVID COOPER

Technology & Sales Executive

PROFILE

As CEO of Zerra DC, I bring a robust track record of driving significant revenue growth, spearheading market expansion, and leading high-performance sales teams across the Asia Pacific region.

As a strong communicator and collaborator I have excelled in building and leading multidisciplinary teams, fostering a culture of performance and constant improvement.

My unique blend of sales, business development and technical expertise positions me to drive strategic growth, forge key partnerships, and exceed sales targets.

Australian National University

WORK EXPERIENCE HIGHLIGHTS

Zerra DC

Chief Executive Officer

Feb 2025 – Now

I lead Zerra DC's APAC data centre platform. Signed lease documentation with Anthropic for the first stage (a 360MW data centre) of Australia's largest data centre campus, and raised capital with Macquarie Capital to fund its delivery.

Microsoft

Head of Region Design & Technology, APAC

2021 – Jan 2025

I led the team that assured, accelerated and de-risked Microsoft's multi-billion-dollar APAC infrastructure investments across data centres, telecommunications and power.

Telstra

Head of Sales, Telstra Purple

2014–2020

Establish, lead and grow Telstra's end-to-end technology professional and managed services business, including direct and indirect go to market models and partnerships.

In this role I built and ran the national sales organisation, growing to over 40 sales specialists and 500 consultants, delivering over \$500m of revenue per annum across cloud-enabled professional and managed services.

Hewlett Packard

Chief Technology Officer, Public Sector & Future Cities

2011 – 2014

Develop and prosecute HP's position on technology innovation in the Public Sector, leading Future Cities initiatives designed to leverage HP technology into multi-billion-dollar country-led investments.

In this role I worked with HP country leadership teams to spearhead investment discussions with government ministers, technology partners and potential investors. Key successes included Government Cloud in Singapore and City Operation Centres in Singapore and New Zealand.
